SUPPLEMENT

UPDATING THE LIST OF AUTHORIZED TEACHING MATERIALS
AND THE LIST OF PROJECTS BEING STUDIED
FOR THE PRESCHOOL AND ELEMENTARY LEVELS

INTRODUCTION

This document is a report on the approval status of teaching materials submitted in light of the new programs and courses of study at the preschool and elementary levels.

This report contains the titles of works recently approved as basic or complementary material, and the titles of materials submitted for approval as basic material. Therefore, it does not include titles which already appeared in the annual list of February, 1987.

Basic, complementary, and reference materials are defined below.

CATEGORIES OF TEACHING MATERIALS

. Basic Materials

Materials designed specifically for teaching, which correspond with the compulsory elements of a program or course which is in effect, and which are required by the pupils of a class for the duration of the program or course.

Teacher's manuals which accompany the basic teaching materials are included in this category.

Workbooks which in themselves constitute basic teaching material, or which are part of such material, require ministerial authorization for classroom use.

. Complementary Materials

Materials designed particularly (though not exclusively) for teaching, which correspond to some elements of a program or course which is in effect, and which are for occasional or optional classroom use. To be approved, complementary instructional materials must be reusable.

Usage dictionaries, handbooks for grammar, and atlases are considered by the Ministère to be teaching materials. Consequently, all works of this type are subject to ministerial authorization, and are generally categorized and listed as complementary material.

. Reference materials

Materials categorized as reference or resource works are considered inadmissible for approval, and do not require official listing in order to be purchased by school boards. Included in this category are general reference works such as biographies and encyclopedias, and works of a general interest or literary nature such as anthologies, plays, periodicals, short stories, poetry and novels.

However, literary materials which contain a significant instructional component, or which are accompanied by a teacher's guide, may be categorized and listed as complementary material.

CRITERIA FOR APPROVAL

Approval of teaching materials indicates that they show an acceptable level of quality with respect to:

- the instructional requirements of a given program or course which is in effect;
- correct language usage;
- moral and religious values;
- the use of official place names;
- the use of the international measurement system;
- the requirements pertaining to discriminatory stereotypes.

QUÉBEC SUPPLEMENT

Publisher's insert into the teacher's guide, or accompaniment to the student's material, intended to cover those terminal objectives which are not treated in the student's text. This is a temporary solution designed to compensate for the lack of materials which cover all of the terminal objectives. Approval of these materials may not be renewed when materials which cover all of the terminal objectives become available.

COMMENTS ON MATERIALS BEING EVALUATED

Accepted prior to printing:

This material has been evaluated prior to final printing. The publisher has received an agreement, in principle, on approval of the final product.

Will be approved upon receipt of a favourable judgement by the confessional committees:

This material is acceptable according to all other criteria for approval.

To be revised:

This material must be revised according to certain ministerial criteria (i.e. SI, stereotypes, language, toponomy, etc.).

Will be approved until 19..., as soon as the entire teaching package becomes available:

The revised version of this material respects all ministerial criteria, and will be approved upon receipt of the entire final product, including the teacher's guide.

Undergoing revision:

This material is being revised on the basis of corrections requested of the publisher by the Ministère.
